

AI Prompt Logs

Date	15 March 2026
Team ID	
Project Name	Health History Organizer
Maximum Marks	3 Marks

AI Prompt Logs

Maintaining a structured record of AI-assisted development activities ensures reproducibility and tracks prompt engineering iterations used during development of the Health History Organizer project.

S.No	Task / Intent	System Prompt & Context	Exact User Prompt	AI Output Summary	Refinements / Iterations
1	Design Enterprise Patient Dashboard	Act as a Senior UI/UX Designer specializing in enterprise healthcare applications.	Design a premium patient dashboard with vitals, wellness score, graphs and responsive layout.	Generated an enterprise patient dashboard with cards, charts, sidebar and healthcare interface.	Refined colors, branding, spacing and responsive layout.
2	Develop Longitudinal Health Platform	Act as an Enterprise Healthcare Solution Architect.	Transform the Health History Organizer into a longitudinal health history platform with multi-hospital history.	Generated Patient, Doctor, Hospital and Admin portals with Health Timeline.	Extended architecture for consent-based synchronization and analytics.
3	Secure Backend & Authentication	Act as a Senior FastAPI Backend Developer following OWASP guidelines.	Generate FastAPI APIs with JWT authentication, RBAC, SQLAlchemy and secure uploads.	Created secure backend modules and protected APIs.	Added UUIDs, audit logs, consent tracking and validation.

4	Interactive Analytics	Act as a Healthcare Data Visualization Specialist.	Create charts for vitals, wellness score and historical trends.	Generated interactive analytics dashboards using Chart.js.	Improved chart readability and health indicators.
5	Enterprise UI Refinement	Act as a Senior Product Designer for hospital systems.	Improve Patient, Doctor, Hospital and Administrator dashboards.	Produced independent dashboards with role-based workflows.	Enhanced accessibility, navigation and overall UX.
