Project Name	Health History Organizer
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template)

Create a problem statement to understand the primary user's perspective. The template helps the team identify user needs, challenges, and emotions to design an effective Health History Organizer solution.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A patient managing personal and family medical records.	Store and access complete health history securely from one place.	Medical records are scattered across hospitals and paper documents.	There is no centralized, easy-to-access digital history.	Confused during emergencies and worried about losing important medical information.
